Our Mission

To provide UUTC members and friends with provocative, in-depth educational programs and materials that expand the intellect and spirit of congregants, promote the Seven Principles of Unitarian Universalism, and support and help to fulfill the social and cultural initiatives of the Unitarian Universalist Association.

About Our Committee

The committee focuses on planning, scheduling, obtaining presenters, ordering materials, and executing educational classes throughout the year for UUTC adult members and friends. Some of the activities the committee has undertaken are the development and presentation of the *UU 101* class and the *Building Your Own Theology* class. The group has also established the UUTC library, obtaining adult religious educational material that is congruent with topics pertinent to UU -- on spirituality, social justice, freedom, peacekeeping, the environment, and others.

It is very rewarding working with mutually motivated individuals, and we welcome new members! For more information, see the [Adult Religious Education](#) page.
